PERIODONTOLOGY  
DENT 519 IMPLANT TREATMENT IN  
DENTISTRY  
Assoc. Prof. Sibel KAYAALTI  
YÜKSEK  
5. CLASS  
FALL-SPRING SEMESTER (9-10.  
SEMESTER)  
WEDNESDAY  
14.30-15.20**

| WEEK    | DATE       | DENT 519 IMPLANT TREATMENT IN<br>DENTISTRY THEORETICAL<br>COURSE TOPICS | FACULTY MEMBER<br>DELIVERING THE COURSE |
|---------|------------|-------------------------------------------------------------------------|-----------------------------------------|
| 1. WEEK | 16.09.2026 | ORIENTATION                                                             |                                         |
| 2. WEEK | 23.09.2026 | Implant Design / Biomechanics /<br>Osseointegration I                   | Assist. Prof. Kürşat ALADAĞ             |
| 3. WEEK | 30.09.2026 | Implant Design / Biomechanics /<br>Osseointegration II                  | Assist. Prof. Kürşat ALADAĞ             |
| 4. WEEK | 07.10.2026 | Implant Radiology                                                       | Assist. Prof. Banu AYDIN                |
| 5. WEEK | 14.10.2026 | Surgical Planning in Implant Therapy I                                  | Assist. Prof. Kürşat ALADAĞ             |
| 6. WEEK | 21.10.2026 | Surgical Planning in Implant Therapy II                                 | Assist. Prof. Kürşat ALADAĞ             |
| 7. WEEK | 28.10.2026 | Implant Surgery I (Theoretical)                                         | Assist. Prof. Kürşat ALADAĞ             |
| 8. WEEK | 04.11.2026 | Implant Surgery II (Practical)                                          | Assist. Prof. Kürşat ALADAĞ             |
| 9. WEEK | 11.11.2026 | Implant Surgery-Specific Augmentation<br>Methods I                      | Assist. Prof. Kürşat ALADAĞ             |

|          |                              |                                                                   |                              |
|----------|------------------------------|-------------------------------------------------------------------|------------------------------|
| 10. WEEK | 18.11.2026                   | Implant Surgery-Specific Augmentation Methods II                  | Assist. Prof. Kürşat ALADAĞ  |
| 11. WEEK | 25.11.2026                   | Intraoperative and Postoperative Complications / Success-Survival | Assist. Prof. Kürşat ALADAĞ  |
| 12. WEEK | 02.12.2026                   | Planning and Biomechanics in Implant-Supported Prostheses         | Assist. Prof. Bahar GÜRPINAR |
| 13. WEEK | 09.12.2026                   | Impression Techniques in Implant-Supported Prostheses             | Assist. Prof. Bahar GÜRPINAR |
| 14. WEEK | 16.12.2026                   | Implant-Supported Removable Prostheses                            | Assist. Prof. Bahar GÜRPINAR |
| 15. WEEK | 23.12.2026                   | Implant-Supported Fixed Prostheses I                              | Assist. Prof. Bahar GÜRPINAR |
|          | <b>28.12.2026-08.01.2027</b> | <b>2. MID-TERM EXAM</b>                                           |                              |
|          | <b>11 -29.01.2027</b>        | <b>SEMESTER HOLIDAY</b>                                           |                              |

|             |                      |                                                                                                                                       |                                    |
|-------------|----------------------|---------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|
| 16. WEEK    | 03.02.2027           | Exam Assessment / Implant-Supported Fixed Prostheses II                                                                               | Assist. Prof. Bahar GÜRPINAR       |
| 17. WEEK    | 10.02.2027           | Zero Bone Loss Concept I                                                                                                              | Assist. Prof. Bahar GÜRPINAR       |
| 18. WEEK    | 17.02.2027           | Zero Bone Loss Concept II                                                                                                             | Assist. Prof. Bahar GÜRPINAR       |
| 19. WEEK    | 24.02.2027           | Prosthetic Materials                                                                                                                  | Assist. Prof. Bahar GÜRPINAR       |
| 20. WEEK    | 03.03.2027           | Treatment Options in Completely Edentulous Patients                                                                                   | Assist. Prof. Bahar GÜRPINAR       |
| 21. WEEK    | 10.03.2027           | Structure of Peri-implant Tissues                                                                                                     | Prof. Gonca KELEŞ                  |
| 22-23. WEEK | <b>15-26.03.2027</b> | <b>3. MID-TERM EXAM</b>                                                                                                               |                                    |
| 24. WEEK    | 31.03.2027           | Exam Assessment / Evaluation of Risk Factors in Implant Applications and Implant Applications in Individuals with Periodontal Disease | Assoc. Prof. Sibel KAYAALTI YÜKSEK |
| 25. WEEK    | 07.04.2027           | Soft Tissue Reconstruction Before and After Implant Application I                                                                     | Assoc. Prof. Gökçe AYKOL ŞAHİN     |
| 26. WEEK    | 14.04.2027           | Soft Tissue Reconstruction Before and After Implant Application II                                                                    | Assoc. Prof. Gökçe AYKOL ŞAHİN     |
| 27. WEEK    | 21.04.2027           | The Etiology, Findings, Treatment of Peri-implant Diseases I                                                                          | Prof. Gonca KELEŞ                  |

|          |                              |                                                                  |                   |
