SMOKE-FREE CAMPUS POLICY

Istanbul Okan University adopts a smoke-free campus approach supporting the right to healthy, safe and clean air. It seeks to protect students, academic and administrative staff, visitors and all stakeholders from the harms of tobacco products and strengthen a culture of healthy living. Smoke-free campus practices are addressed holistically across campuses in accordance with legislation and institutional responsibility

Policy Core Actions;

- Protect clean air quality across campuses and improve healthy living environments.
- Develop and promote protective and preventive measures against the harms of tobacco products.
- Prevent tobacco use in all closed areas, which are used for education, healthcare, social, cultural and administrative purposes, ensuring compliance with legislation.
- Extend and implement smoke-free practices in outdoor sports, cultural, artistic and similar activity areas.
- Provide and maintain smoke-free shared spaces for all campus stakeholders.
- Encourage stakeholder participation in and awareness of smoke-free campus practices.
- Plan and conduct information and awareness activities concerning tobacco harms.
- Plan, coordinate, monitor and report smoke-free campus practices.
- Continuously improve performance through the PDCA cycle.
