İSTANBUL
OKAN ÜNİVERSİTESİ

SUSTAINABLE INVESTMENT POLICY

Istanbul Okan University bases investment decisions on transparency, accountability, fairness and sustainability and adopts a holistic approach considering environmental and social impacts alongside financial returns. It prioritizes sustainable investments supporting current and future generations, social benefit and institutional development.

Policy Core Actions ;

- Ensure transparent, open and fair investment processes and strengthen accountability in decision-making.
- Consider environmental and social impacts alongside financial sustainability in investment decisions.
- Support investments benefiting current and future generations and promoting social benefit and sustainable development.
- Prioritize sustainable investment in education, research, technology, healthcare and strategic development.
- Support long-term value creation, institutional capacity and quality improvement.
- Develop investments reducing environmental impacts, increasing resource efficiency and supporting sustainable campus goals.
- Integrate social responsibility, ethical governance and social justice into investment.
- Identify, assess and manage environmental, social and economic investment risks.
- Plan, coordinate and implement investment in line with institutional strategic objectives.
- Monitor effectiveness and continuously improve practices through the PDCA cycle.
